With more than 70 years of experience in welding tractors, ESAB brings you the most flexible and versatile tractor on the market. Versotrac has been designed with the input from real life experience from welders all over the world.

- Modularized system where the tractor can be disassembled into smaller units, carried separately and easily transported
- Robust wire feed mechanism that can weld mild steel wire up to 3/16 in. (5 mm), up to 1000A @ 100%
- The automatic weld head detection and setup lets you change between SAW, GMAW and gouging in no time
- Intuitive user interface with real-time heat input – keeps you in control of the weld
- Introducing an all new ergonomic handling system for welding wire spools, making wire changes easy
- Tool-less interaction makes it easy to change weld point position and switch between butt and fillet welding
- Re-buildable between three and four wheel versions to suit your needs
